Corporate Profile

One Tick Solution, is a team of UI/Web Designers, Software Developers and Digital Marketing experts offering design and development services for the Internet & Intranet applications. Based out of Dubai (UAE) and having our branch office in New Delhi (INDIA), we have impressed a growing national & international client base consisting of small & medium enterprises, big corporate houses and individual businesses.

These include corporates from various verticals including Travel, CAs, Training Institues, Software Companies, Individuals, Startups and so on. Experience with a mix of large and small organizations has provided us the ability to understand the unique needs of small business, the foresight for growing business, and what it takes to maintain or launch a brand, product or service for large business.

We're not a huge company, which means we can offer you something others can't - personal service. Whether you know exactly where you want to go, or you're taking a spontaneous trip, we'll help you find the way. It doesn't matter if this is your first adventure or if you're a seasoned traveller; jump on board and come on a journey with us.

Overview

Why One Tick ?

Consistent performance and sustained growth is proof enough of our capabilities.

// Deep understanding of business principles

Our collective knowledge of business and technology helps us arrive at practical (yet aesthetic) solutions that are business result oriented.

We have the know-how to develop solutions like building-blocks that can be seamlessly integrated to expand to meet your growing needs.

// Commitment to Quality

A product which is thorough on quality is the one which can be vouched for. We know this and make sure that each of our project is adhering to detailed quality parameters in all aspects. This makes the client satisfied and help our Business grow.
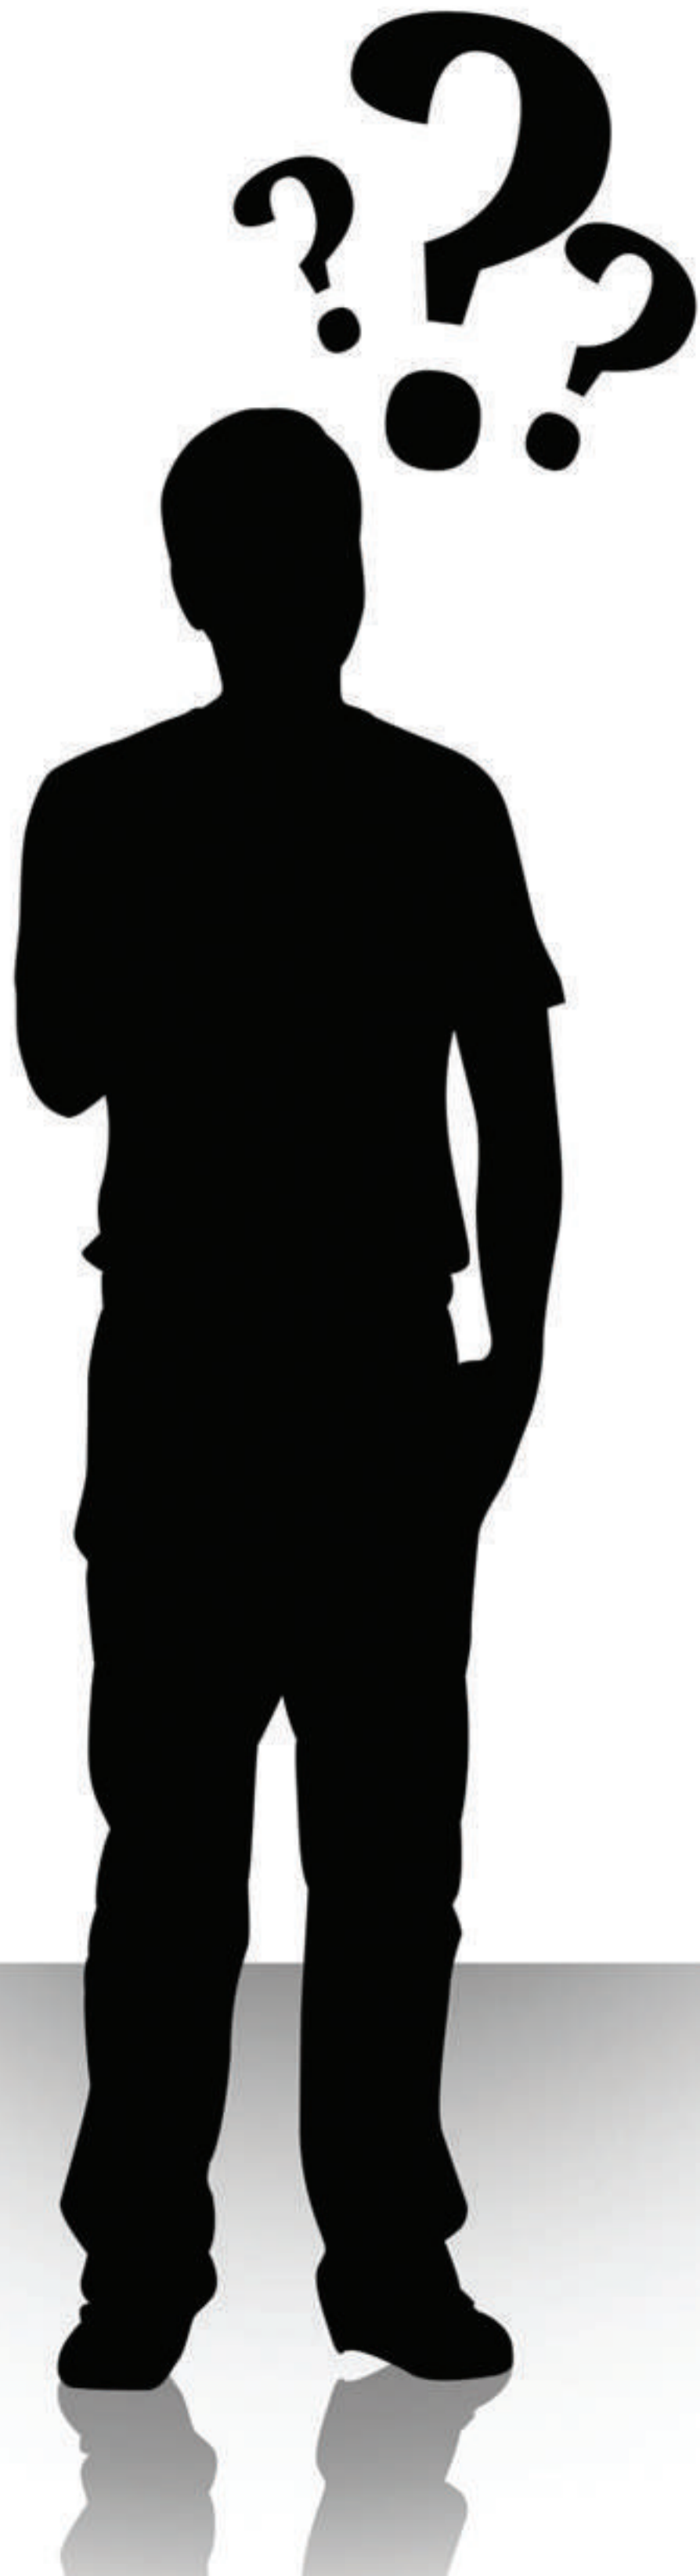

// Honest and Transparent Advices

We are not here ONLY to make money. We give honest and sane advices to our clients which attract them towards us and we build long-lasting relationships. It has been a clean record of a decade where each client has at least given us 3-4 leads/refences due to our honest and transparent business dealings.

// Perfection in design principles

Our commitment to deliver quality solutions that surpasses customer expectation is a unique experience for each of them. They not only get a WOW design for their project but also a product which can be showcased for one and all.

Services

UI/UX Designing

UI/UX visual designing focuses on the aesthetics of a site and its related materials by strategically implementing images, colors, fonts and other elements. It creates an immense impact on users. Our centered design process produces a sensible effect on the target audience.

By targeting users on a deeper and more emotional level, we make the user experience more balance & dominant.

Digital Marketing

We can help you in the entire lifecycle of lead generation to lead conversion with focus on your ROI & profitability. If you are just starting out in your digital marketing journey, we can help you to kickstart it with lead generation in rapid quick time. If you are an established digital marketer, we can help you to generate more leads at low cost to boost your ROI.

Emailers & Landing pages

Skilled designers at OTS create E-mail templates that carry interesting and informative facts about the business organization.

We design landing pages effectively for the purpose, where traffic is sent specifically to prompt a certain action or result.

Blogs

We do blog design and development using the best CMS available in market (Wordpress). If you need a customized theme design, we will create according to your requirements. Our experienced designers and developers can put together a professionally-designed blog utilizing the best available plugins and widgets to make sure your every need is met.

Maintenance and Support

We understand the need to continually make changes and updates to your Web site. We offer website support plans at a variety of levels of service, fitting most every company's budgets and requirements. We review and identify the best strategy to update your site for best results.
